

Anuoluwapo Victor

Front-end Developer

+2348167751906 anuluwa2051@gmail.com [linkedin.com/in/a-n-u-o/](#) [github.com/A-n-u-O](#)

Summary

Frontend Developer with experience building responsive, scalable, and performant web applications using React.js, Next.js, and modern tools like Tailwind CSS and Zustand. Strong foundation in state management, RESTful API integration, and UI/UX collaboration. Passionate about clean code, growth, and building impactful digital experiences. Currently seeking a remote Frontend Developer role to contribute and grow in a collaborative team.

Technical Skills

Languages & Frameworks:

- JavaScript
- TypeScript
- React.js
- Next.js
- PHP
- HTML
- CSS

State & Data Management:

- Zustand
- TanStack Query
- React Context
- Axios

Tools & Libraries:

- Tailwind CSS
- Git
- Vite
- PostgreSQL
- Ajax
- XAMPP
- JWT
- Mantine UI
- Material UI

Soft Skills:

- Communication
- Problem-Solving
- Team Collaboration
- Leadership

Projects

Authentication System - PERN Stack

May 2025 - June 2025

Full-Stack Developer

<https://github.com/A-n-u-O/Authentication-with-PERN-stack>

- Developed a full authentication system with login, registration, and JWT-protected dashboard
- Boosted app performance by 30% via optimized queries and modular code
- Built a responsive UI with React.js and Tailwind CSS

Expense Tracker Dashboard

Frontend Developer

<https://expense-tracker-dashboard-brown.vercel.app/>

- Built a responsive financial dashboard using Next.js, Zustand, and Tailwind CSS
- Implemented dynamic form handling, state-based transaction tracking, and local storage fallback
- Visualized real-time data using Chart.js to display expense breakdowns by category
- Developed summary logic to compute and display total income, expenses, and remaining balance
- Emphasized modular design, clean UI, and state persistence for better user experience

Tech Stack: Next.js | React.js | TypeScript | Zustand | Tailwind CSS | Chart.js

Shipment Scheduling & Booking System

November 2024 - December 2024

Team lead | Full-Stack Developer

- Led a team of 5 to create a logistics scheduling system with real-time Ajax updates
- Built an interactive calendar for shipment tracking
- Tech stack: PHP | JavaScript | HTML/CSS | Ajax | XAMPP

Human Resources Management System (HRMS)

June 2024 - June 2024

Frontend Developer

- Improved HR dashboard UI, increasing user satisfaction by 25%
- Implemented features like role-based access and attendance tracking
- Tech stack: React.js | TypeScript | Tailwind CSS

Education

Babcock University

2021 - 2025

Computer Science - Bachelor of Science

4.46 / 5.00

Work Experience

Duromedia Academy

July 2023 - August 2023

Project Lead

- Helped and led a team to build a project using Bootstrap CSS framework and Javascript to recreate an educational website clone

Prunedge Development Technologies

January 2024 - July 2024

Software Trainee

- Built frontend components for HR systems using React.js and TypeScript
- Collaborated across teams to deliver responsive, modular features
- Gained practical experience with version control and project handoffs

Volunteering

Cowrywise Campus Ambassador

October 2024 - present

TedxBabcockU Planning Committee

October 2024 - April 2025

Member
